

HARDINGSTONE ACTION GROUP

Our Principal Objections

Our education, health and infrastructure already can't cope; how will they deal with 1000 new families?

The village and surrounding road network is congested; what will it be like with 2,000 extra cars on our local B roads?

There's been excessive development in this area in recent years. When will the loss of wildlife, local character and history end?

Posters & Letters

The posters and the protest letters have been a great success, showing that the majority of residents are supportive of us. Many thanks to all you who have displayed posters, sent letters or backed the cause.

Environment Agency

We're in correspondence with the Environment Agency to see if the new development will increase flood rise and how raw sewage will be managed.

Dear Hardingstone Resident,

We thought you'd like an update on our campaign to prevent a massive housing development in the arable fields bordered by The Warren and Newport Pagnell Road. We are not against building new houses but we feel that the local infrastructure cannot cope with a development of this size. Do you wish to maintain Hardingstone's character and history and prevent it becoming a part of Northampton's urban sprawl?

We have the support of...

- The Parish Council - who have kindly donated funds and employed specialist advice regarding the proposed planning details. Along with the Hardingstone Action Group the PC have also sent official letters of objection to Borough Councillors and the Planning Committee.
- Our MP Andrea Leadsom, who has visited the village twice, has publicly backed our cause.
- The Hardingstone Residents' Group have also generously donated much needed funds.
- Over 1,300 people have signed petitions, sent letters or displayed posters.

If you'd like to get involved..

- Visit savehardingstone.wordpress.com and [facebook.com/hardingstoneactiongroup](https://www.facebook.com/hardingstoneactiongroup)

- Sign the petition at the village Post Office or Sun Pub

- Talk to Dee Kelk on 07903143615 with any ideas, advice or information on how you can help.
